

You, You, You...

EXERCISE MADE EASY

If you are serious about losing weight you need to exercise regularly. In conjunction with a healthy eating plan, there is no better way to lose weight, improve muscle tone, reduce stress and keep your weight off.

For efficient fat burning you should exercise at a rate where you work up a light sweat but are still able to breathe easily enough to hold a conversation.

Your body - sexy, simple and sorted!

This programme has been designed by a fitness instructor to help you to learn basic, easy to understand exercises. You should do these exercises at least 3 times a week.

ADDED FAT BURNING!

For added fat burning and muscle tone, it is recommended that you do 30 minutes of cardiovascular exercise on the days that you are not doing the exercise programme below. This includes brisk walking, jogging, riding a bicycle, or swimming.
